Please take seriously the proposed plan for Wal-Mart, and STOP this very bad idea. This proposal is yet another instance evidencing that juggernaut leviathan's:

- (1) monopoly mentality,
- (2) pervasive disregard for laws and the rules of fair play in any circumstance,
- (3) willingness to flaunt proscriptions of conflicts of interest, and
- (4) apparent insatiable desire to destroy the character of our communities and the time-honored, democratic approach to business and our American way of life.

Just as "might does not make right," merely having the size, ability, and inclination to crush and kill one's neighbors brings with it neither the freedom to do so nor the freedom to change rules and laws in order to make such activities legal or acceptable.
